The listing of claims below will replace prior versions of claims in the application:

- (CURRENTLY AMENDED) An apparatus comprising: 1.
 - a first device;
 - a first connector coupled to the first device;
- a second connector coupled to the first connector through a first plurality of conductors, wherein alternating pairs of conductors are reversed such that at least one pair of conductors is reversed at a crossover position closer to the first connector than the second connector; and

a second device coupled to the second connector through a second plurality of conductors.

- (ORIGINAL) An apparatus as recited in claim 1 wherein the first 2. device includes a plurality of differential drivers.
- (ORIGINAL) An apparatus as recited in claim 1 wherein the second 3. device includes a plurality of differential receivers.
